

GRADES K-3 SPRING SESSION INTERESTING INVENTIONS

Most objects we use on a daily basis were invented by someone. During this unit, students will discuss the difference between an invention and a discovery, learn how inventions solve problems, and find out how inventors get their ideas patented. Each week, students are encouraged to think of what they could invent, or improvements they could make to an existing object to solve a problem. So many things we use each day are someone's invention. Introduce your student to the world of ideas, creativity, inventions and patents.

We will construct different familiar objects each week such as a Hand mixer, Windshield wipers, Conveyor Belt, Turnstile, Sewing machine & Typewriter.

Each model is motorized for maximum movement and fascination!
Start creating!

- Date: Apr 12th – May 31st (8 weeks) on Thursday's
- Time: 6:00 – 7:00pm
- Fees: \$120, Make payment as check
- Location: Monroe Community Center, 120 Monmouth Road, Monroe, NJ 08831
